Examiner : Patel, A.

Filed : 07/28/2000

For : Thallium Free Metal Halide Lamp With Mg Halide

Filling for Improved Dimming Properties

RECEIVED

Assistant Commissioner for Patents  
Washington, DC 20231

MAY 01 2003

OFFICE OF THE SPECIAL  
PROGRAMS EXAMINER

PETITION TO REVIVE

1). On February 28, 2003, applicants sent an amendment together with a request for a three month extension (copy enclosed herewith) and a postcard in response to an office action of August 29, 2002.

2.) Applicants' attorney deposited the response in the mailbox on Dearborn Street in Salem.

3.) A postcard was returned (copy enclosed). Somehow the mail seemed to have been delayed since the post card is dated as received on March 19, 2003. Usually it takes no more than 3 days for the mail to reach Washington.

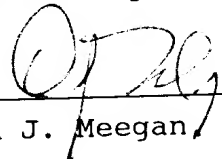

4.) Applicant then received a Notice of Abandonment dated 03/26/2003,

5.) Applicant called the Examiner immediately upon receiving the Notice, however, he said since the abandonment letter was sent Applicants had to submit the present petition. At that time, no record of the amendment was found in the Patent Office. A copy of the documents sent is enclosed herewith.

5.) Applicant had no part in the loss of the amendment or the application which was answered before the due date, thus there is no fee due for revival.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 101 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,
